

Presentation Guidelines

PowerPoint presentations are encouraged. A laptop computer with Microsoft PowerPoint 2003 will be used for the presentations. A handheld slide changer with a red laser pointer will also be available. If you plan to use another type of presentation equipment, such as a slide projector or overhead projector, please let us know ahead of time so we can accommodate you.

PowerPoint presentations can be submitted via e-mail at anytime prior to the week of the workshop. They also will be accepted during the evening reception prior to the workshop or during the morning before the workshop begins and during breaks. Please provide your presentation on a cd or a flashdrive with a USB connection.

Please keep your presentation within the designated time slot and allow for about 5 minutes for questions at the end of your time slot.

If you have any questions, please contact Brian Roy Lockhart at 662-686-3171 (blockhart@fs.fed.us) or Emile S. Gardiner at 662-686-3184 (egardiner@fs.fed.us).

Thanks!
